

# Which Classic Model Are You?

Each generation of cars has its own unique personality and needs—just like you. Stop by the Scripps Health Pit Stop to see our classic car collection, and discover which “model” you are!

We'll help you “tune up” your health with free screenings for blood pressure and body fat. Enjoy a relaxing chair massage, and make sure your hands are squeaky clean with our glow-germ test.

Bring this ad to the Scripps booth to get a free pocket-sized first aid kit and hand sanitizer.\* And if you can't make it over to see us, it's still easy to find the right Scripps doctor to give you a “tune up.” It's just one call to 1-800-SCRIPPS or one click to [scripps.org](http://scripps.org).
